Contact your Brother dealer to arrange a service or contact our customer service team. Make sure the presser foot is lifted before threading the machine. Set your bobbin correctly into the machine. For top loading bobbins, the thread needs to be going around the bobbin in an anticlockwise direction. Use the guides on your machine or refer to your instruction manual. If you have a mechanical machine, check that the foot is lowered before sewing. Computerised machines will remind you to do this. Using thread that does not pull through smoothly can cause thread breakages, poor stitching or damage to your machine. For best results, you should use a good quality, branded thread. The thread should pull through the machine with no tightness. Special order. Our supplier Brother USA carries this item so we can order it at any time.
