With a flick (or tilt of your device), you can explore the world, collect clues and items, and fight.With wisdom I would clearly say that Tintin's Adventure is one of the best video games I've ever played for Android. Tintin's Adventure follows a boy who sets out on his journey to find and learn a unicorn secret. On the one hand, Tintin offers old and new gaming experience with light and breathtaking 3D graphics. The controls aren't bad, and the game's animation fits the style of the film perfectly. You have the privilege of exploring and even watching the privilege of manor, desert and even Karabudyan. And all this fun is HD.

The Adventure of Tinin is one of the best tie-ins I've played so far. The game creates an elegant adventure and intuitive battles. While playing the game, you can use Stealth to hide through guards, a pilot plane, deal with swords, to solve puzzles, and even ride with camels. Do I think all adventures are in one place? You should also discover a more interesting experience. One thing you liked in Tinin's adventure is the basic team match. You know that the young reporter (Tinin) can't do it alone, so he needs the help of his friends during the story. During the game you will control the dog snow, Captain Haddok and the legendary Sir Francis Haddock in great age of pirates. These roles appear depending on the mission level. Dud, the casual gamer and perks of all ages will definitely enjoy this game.
