length of time, and you can further filter them down to find exactly what suits your needs. While there are more minimalist styles here, where Saturday Gift really shines is in its self-professed “cute” calendars — ones with swooping calligraphy scripts, lesser-used fonts and charming graphics meant to put a smile on your face. Many of the designs here feature color-coordination and themed graphics to add a bit of extra interest while keeping you organized. You’ll find school calendars, calendars with religious holidays, astrology calendars and make-your-own photo calendar templates — yes, for those big yearly flippage calendars grandparents love to get around the new year. Calendarlabs.com Its name may make it sound like there’s a lot of experimentation going on here, and you might be tempted to experiment with some of the more unique offerings on Calendarlabs.com after you’ve found an everyday printable that meets your needs. Photo Courtesy: CalendarsQuick The free calendars here come in weekly and monthly varieties, and there’s a customizable option that lets you insert elements like holidays, action items and lines for notes. A lot. Simply print one out on durable cardstock, cut out the calendar and fold it up; it really is a little piece of a rainbow for your desk. If you want your printable to enhance your home or office decor, not compete with it, the options here are ideal. Like Saturday Gift, A Piece of Rainbow offers a library of free printable calendars with more modern and unique fonts. In addition to blank printables that you can fill in so they’re customized exactly how you want them, you’ll also find daily, weekly, monthly and yearly calendars in a variety of formats, from Word to Excel to PDF. They’re not the most efficient for planning, as there’s no space on them where you can write. A Piece of Rainbow This site — and one of its calendars in particular — is just too cool to leave off the list. Photo Courtesy: Saturday Gift Most of the calendars here are monthly and yearly designs, although you can find some weekly options to suit your needs. Designs range from simple monthly pages to calendars that are half gorgeous artwork, half scheduling squares. You’ll find standard and weekly calendars geared towards both business and personal use, along with those you can use for other more specific blocks of time — think 7-, 10- and 14-week calendars you can reserve for use with work projects or personal goals. Many are designed with particular font and color themes, which can help your paperwork feel more cohesive and like an entire calendar system, not just a page you print out and tack up on the wall. Each month, you can have the calendars of your choice sent to your email inbox so you’ll never forget to print out your upcoming pages. Where Calendarlabs.com’s vast selection can feel a little intimidating to some — there’s a lot to browse — CalendarsQuick makes decisions a bit easier. These calendars are geared more towards office workers due to the features they offer, and making a choice here couldn’t be easier. CalendarsQuick Want to keep things simple? Photo Courtesy: A Piece of Rainbow Still need a printable calendar you can get more use out of — and actually write things down on? This site is jam-packed with calendars you can really put to work. Saturday Gift While basic, traditional calendars with familiar fonts and few frills work well for many of us, others prefer some pizzazz that helps their calendars feel more personal and pretty. Photo Courtesy: SDJ Productions/E+/Getty Images Whether you need them for the office, the classroom or your refrigerator at home, a paper calendar helps you get organized and stay on top of your to-do list and appointments. It also analyzed reviews to verify trustworthiness. Sure, digital calendars are convenient — we can take them everywhere we go on our smart devices — but paper calendars provide easy, at-a-glance visual reminders to everyone who passes through the common areas of a home or workspace. You’ll also find unique printables to supplement your calendar — think fillable bucket lists, sleep logs, and book and habit trackers. If you’re looking for a free printable that’s both tactile and unique, not just something to hang up on the fridge, you’ll love A Piece of Rainbow’s DIY dodecahedron calendars. There’s even a Netflix calendar that tells you the dates when new programming is hitting the streaming site and old shows are making their exits. There’s also an option to sign up for the site’s “calendar forever” service. The site offers free access to 12 of the most popular printables in its library. You have the ability to print out an entire year’s worth of pages on the paper size and in the orientation of your choosing, too. And some people simply remember things better when they write them down using a pen and paper. To calculate the overall star rating and percentage breakdown by star, we donâ€™t use a simple average. But for at-a-glance date tracking and something colorful and fun for your office, you really can’t beat these. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. You do have the option to sign up and pay for a subscription to view and print the hundreds of other calendars in its catalog, but if you’re looking for a basic calendar to see if you can get into the habit of using one, this site is a great choice.
