He is afraid his kind would think he has become too human. Director Robert Duncan McNeill says Thompson was perfect for directing the episode. In another part of Patience, Liv starts to question what is happening to her. It has to do with the play the children of Patience act out regarding the town's tragic history. He finds it difficult having no real experience. Marty McFly (Michael J. Fox) is an ordinary teenager by most standards. Fans might also recall Thompson for her cult classic role in Back to the Future. She is stuck on the fact she does not remember sending her dress to the dry cleaners. When the real Harry's daughter visits him, he is forced to try and bond with her as a father. The 59 miners die, while one survives. Thompson reprises her role in Back to the Future II as a happily married Lorraine who feels some disappointment toward Marty giving in to peer pressure. The play depicted the town's history of a group of miners risking their lives for one trapped colleague. In Resident Alien Season 2, Thompson was hands-on in making the children play dramatic and outrageous. In Harry's storyline, he contemplates going to New York to seek out the alien who sent him the phone number. Alan Tudyk and guest star in Resident Alien Season 2 | via Syfy The episode 'Family Day' helps Harry realize what he must do. While his daughter knows something is different about Harry, she ends up liking him more than she ever has in her life. At the same time, mayor Ben wants to change the town's image after the murders.
