Kumari kadam history in tamil pdf free download

Kumari kadam history in tamil pdf free download.

Wait a moment and try again. We are all aware that the origin of the Tamil people and their culture is shrouded in mist © Deep river. Although there are many translations narrated in early literature, the land that extended to southern India and later submerged in the Indian Ocean has been a question of conjecture for a study by scholars. Two eminent American geologists, McKenzie and Slater, explained clearly that Africa and Amman © rich of the South were closed together as part of the primitive continent until © about 200 million years ago. The current formations of India, Arabia, Africa, Antarctica, Amnia © rich in the south and Australians began to separate due to natural disturbances and to move to different parts of the earth at the rate of 15,000 years per mile © and found their places on the Asian continent. The land mass movement, called Navalam Theevu in Tamil, provoked the formation of the current continent of India. There was a general belief that both Lemuria and Kumari Kadam were one and the same thing. However, it was established by Frank Joseph, Secretary of the Ancient American Association, in his book The Lost Civilization of Lemuria, the existence of a land called Lemuria, one of the oldest civilizations in the world, about two, five lakh years ago in Indonesian. © sia. So Lem ria and Kumari Kadam, which existed in the southern part of India, are different lands. Mr. Joseph too © m established that Mohenjodaro's letters from the Eastern Islands are almost 1,00,000 years old. He critically examined the opinions of several scholars and established the source of Mohenjodaro's letters as well as the ancient civilization of Moo and wrote that, due to natural calamities, the island of Moo was destroyed about two, five lakh years ago. The East Island, 1,000 miles near Japan, has a script called Rongo Rongo and is © authentic letters from Mohenjodaro. This was fixed at 1,00,000 years old. From of Moo, called Lem ria, which was Near IndonÁ©sia, about 2.5 lakhs years ago, people regularly moved to Atlantis in the Mexican Sea and Kadam Kumari in southern Tamil Nadu, about 1,00,000 years ago due to the tsunami. These letters are the script of civilization Moo, which was well developed. Since Atlantis, due to the tsunami, the Moo people moved© to South America and became Aztecs and Incas. Those who moved to North © became Mexicans and Red Antos. Since Kumari Kadam, south of Tamil Nadu, about 15,000 years ago people moved to Africa and became Summingo©and those who moved from Africa to Africa later became Jews. Since Kumari Kadam, south of Tamil Nadu due to the tsunami, people moved to Bengal and became Cholas and those who moved to Sind and Punjab became Cheras. In Sillapathikaram, it was mentioned that a person toa Ezhuthanga Naduece Lugares (7x7 =49 paÁses) existed. So the south Tamil Nadu and Kumari Kadam are different regions. Those who moved south to Tamil Nadu were called Pandiyas and they spread across Ceylon and Tirunelveli. The technical literature sithets say that during the Kurukshethra war, Chera Kings had given food to both © army. Of all these we came to a conclusion that the ancient South Africa would have been with high cliffs, dense forests with high fertility. Due to a calamity, which occurred in 9,000 BC, a destructive disaster occurred and destroyed Chera, Chola and Pandiya Kingdoms and all of them then came and settled in southern Africa. The great scholar Sri Avvai Duraisamy Pillai determined that the ÁAhaá Pancha Dravidam Á á © region consisting of Gujarath, Maharashtra, Andhra, Kerala, Karnataka and Tamil Nadu. This is © the time to write the correct story of Tamil Nadu. Nakkeear Urai (Nakkeear Urai) á© mentioned that 72 Pandiya Kings had ruled Tamil Nadu (which was included in the destroyed Kumari Kadam) from 30,000 B.C. to 16,000 B.C. for 14,000 years). Our universities have to take responsibility for reaching the correct history of Tamil Nadu. Nadu. It was not done until now to correctly evaluate the shape and appearance of Tamil lyrics. Today, in Tamil, there are three es e la ', two Á e ra' and three es e na '. These are also in Á e grantha '. But in Á e naagari ', which was born in 500 a.c., there is only one e la', an ounce ', and two Á e na'. M. Sundarraj, Reformed Financial Controller of the Integral Technic of Coaches, which made an extensive research on Rig Vedas, wrote a book entitled to e? He explained that our Mithing Rig Vedic is ancient in the world. The myths of Rig Vedic are symbolic expressions of astronomical phenomena, both lunar asterisms and solar movements. The rig veda calendar was essentially luni-solar, being the lunar aspects considered important for sacred purposes, but the solar movements that determined the stations of the year, were also important for the people Rig Vedic. Rig Veda has already adopted a system of grouping the stars of the lunar zodot in pictorial form, such as that of a bull, scorpion, eotig, etc. The origin of the concept of constellational clusters in pictorial forms can be traced in rig veda. According to n.p.ramuradi, an astronomical investigator, the time cycle referring to 24,320 human years is mentioned in the rig veda in about 50 seats. But to read Rig Veda, Á e Grantha 'is essential. Also to read and clearly understand our Literature e Sangam? Á e GranthaÁ e e? Knowledge is needed. If we accept weighed and magnanimously that our old cards TÁ e Miles are cards as a grantha, "this will open the way for the realization of our old civilization. Also, to read philosophy, art, sculpture, medicine, etc., Á e grantha 'will be useful. It is necessary at this stage to do an intensive search on the charts of Mohenjodaro and our old languages, the Sáscrito and the Tan e Thousand, and other Indian bonds, to check how the guide has changed over time and new lungs evolved. In India, the TÁ e thousand and the Sávrto are the oldest and both source other languages. Languages. Fact is © proven by Vedas and our literature Tamil Sangam. Great Saint Arunagiri Nadhar says in his Thirupugazh that Tamil has 51 "schagharams". Similarly, the total number of cards "Granthha" is © 51. To recover the history of more than three years of Lakh in the past, the Saptharishi calendÁrrio will only be able to provide adequate and genuine assistance. We were able to fix the dates of the story from 25th Chathur Yuga to 28th Chathur Yuga. The Mandala Saptharishi played an important role in almost all of the world's ancient civilization. It is the fundamental point of all astronomical factors and observations. N.p.ramadurai, with my help, found and established that the Mandala Saptha Rishi takes only 2,187 years© to make a complete circle through all 27 asterisms. He was able to establish that Chathur Yuga comprises only 12,160 years. I conclude with a request to all the great Tamil scholars, eminent astrologers and medical experts to unite in this noble research to establish the language of Tamil language and the táea thousand of the race for the whole world. world.
